Notes:

Data source: Course Enrollment and Outcomes dataset, produced by Institutional Studies, Office of Planning and Budgets.

Counts represent course enrollments by undergraduate students in undergraduate courses.

Includes undergraduate students only.

Students are counted as "Enrolled" if they are enrolled at the census date (quarter semester).

DFW count and percentage include those who dropped the course by the end of the semester, received a failing grade, or withdrew from the course.

Passed Repeatable (passed with a repeatable grade) includes those who received a grade which allows the course to be repeated (1.0 or 1.5 grade).
